

13" Base  
with  
8.5" Centers  
FOR  
#61,62  
SERIES  
LAMP POSTS

The diagram shows a circular base with a diameter of 13 inches. It features four mounting points, each with a center-to-center distance of 8.5 inches. The mounting points are located at the top, bottom, left, and right positions. Each mounting point consists of a small circular hole with a vertical or horizontal line passing through its center. A dashed line indicates the inner boundary of the base, which is slightly smaller than the outer solid line. The text is centered within the base.
